

IN THE CLAIMS

*A1* 1. (Amended) A sprayable insecticidal composition which comprises an insecticidally effective amount of an insecticide; about 3% to about 9% of an abrasive; a low level of surfactant; an inert carrier; and optionally a film-forming inhibitor, wherein the film-forming inhibitor is an agent to inhibit the formation of a film.

*A2* 12. (Amended) The composition according to claim 8 wherein the abrasive is calcium silicate.
